Member News & Reports

Final Club Meeting is at TJ Ambers

Our last meeting will be held at yet another location. For you who are counting, this is our Fourth meeting location this year.

See the website for a map, (bottom of the home page)

TJ Ambers Restaurant

(located in Tri County Plaza)

1500 Canton Road, Akron, Ohio 44312

Phone is : 330-733-9611

We had some of our member try and get into Ryan's the other day and discovered that they are closed and taking down the signage. This caused Don James to have to scramble again to secure a meeting location for us. Thanks Don!

Our last meeting of the season is always well attended. Make sure that you get there at 6:00 to have time to eat and converse before our meeting begins. Bring your stories and pictures to share with the group.

Colder Weather is On The Way

The leaves are dropping, the temperature is dropping, the density altitude is dropping... Before the show starts dropping, get out and take that last flight of the season before you put your bird to sleep for the winter.

Before you "Pickle Your Engine" and cover your craft for it's winter slumber, make sure you get out and take advantage of the improved performance you get in colder weather. Remember that because of the lower temps, the air becomes more dense. That will help make your plane jump off of the ground and climb like a scalded cat.

If you can do it safely, make sure you get some pictures of your adventure. We have only had a cou-

ple of member reports this year and everyone enjoys hearing and seeing what the membership is flying to.

Election Time Again!

November is the time of year to get out and vote. That goes for our club officers as well. If anyone wishes to run for an office, please make yourself known. Remember that we could still use another body to take on the position of Secretary.

Smart Phone Access to Web Site

I have been working on making our website more and more content rich when ever I can. One of the things that I have wanted to do is incorporate more access to Smart Phones. Androids, Iphones, Blackberries and all the other brands have the ability, through the phones camera and an app, to scan a special type of bar code and be able to go to the website associated with it. I have created just such a code and will make it a part of our newsletter so that anyone who gets a hard copy can scan it and visit our website on their phone. Try it...

For those who don't have the app on your phone, but can still surf the web on your phone, remember the url is...

www.LiteFlyers.org

Winter Excursion Being Planned

Mike Baker made a trip to Michigan last month to check out the Air Zoo aviation museum as our possible trip this winter. Do you have an idea of a place to visit for our January Road Trip that can be reached in a couple of hours and is open on a Saturday? Bring your ideas to the meeting to discuss what interests you.
