November is Last Meeting of 2009—Elections!

Election News Coverage—“Catch all the exciting election coverage as it happens.” OK, maybe not all that exciting, but it is time for the NCLF Elections. Attend the last meeting of the year, make your voice heard, and enjoy good friends and good food! A BIG THANKS to our officers for the work they have done this past year!

Fall Colors 2009!

Next Club Meeting – November 6, 2009

Club Meetings are normally held **the first Saturday of each month** at 6PM at The Comfort Café in Mantua. Any changes to this schedule will be posted here in the Flyer. Prospective members, guests and family members are **always welcome**.

Member News & Reports

NCLF Sign to be hung at Comfort Cafe

Update—The sign was presented to the Comfort Café and was accepted to Jason Lerchbacher. It will be hung on the wall, visible to all who enter the establishment. The sign will be used to promote the club and the restaurant. In addition to the sign, you really need to check out the redecorating that the restaurant is going through. It is taking on a very comfortable atmosphere.

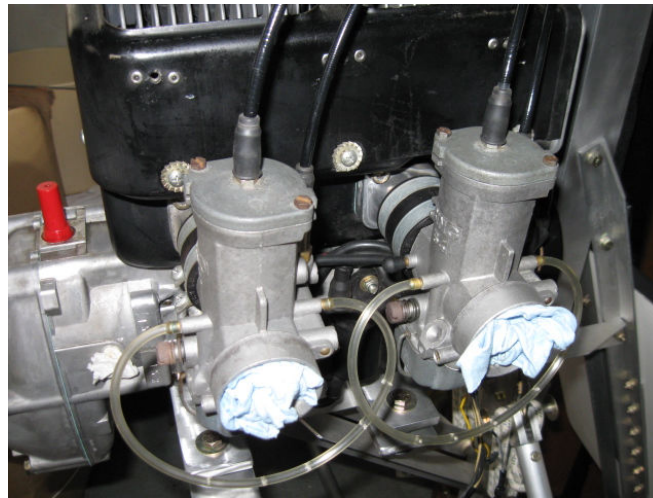

For Sale and Wanted area updated

The For Sale and Wanted areas of the newsletter will be cleared out at the end of the year. If you have something for sale or you are looking for something, please send a description of the item along with price and contact information. It will be placed in the April newsletter and will remain there until notification of a purchase has been sent in or until the end of the year. If you have something listed in either section, please keep me informed so I can make sure the section is updated and accurate.

Colder Weather Coming...

With the end of the season, most people have the job of putting away their bird for the long winters sleep. This does not mean that you can't spend some quality time with your machine. Maintenance is something that everyone can get a head start on for the spring. **Engine Work**—When was the last time you had your engine decoked? Can you do it yourself, or

should you send it to an authorized repair station. During the winter, you won't miss it as much. Make sure that you store your engine properly to prevent internal rust from moving in while not in use. **Fuel System**—How do those

fuel lines look? Can you rebuild your fuel pump? Clean out your fuel tank? Carburetor? **Airframe**—Most of our machines are pretty simple in construction, but metal will still corrode. Start with a blank sheet of paper and start listing all parts that are showing signs of time. Look at the bolts, nuts and other hardware and mark anything that is questionable. Look to see if there are any fatigue cracks starting or if any bolt holes are elongated. **Covering**—Fabric does not last forever. Are there any punctures or tears? How old are the sails? Is the frame under the sails showing signs of cor-

rosion? **Instruments**—Have you been dealing with a RPM gauge that reads a little off? Is one of your temperature gauges not working? Maybe you've been good enough for Santa to leave you something special this year. **Controls**—How stiff are your throttle and choke cables? Pick up or borrow a Cable Oiler and use a quality lube to make it move smoothly and last longer. How much play is in your stick, flaps and rudder? May need an adjustment or replacement, but you have to look to make the determination.

November Activities and Beyond

Saturday, November 7, 2009

North Coast Lite Flyers Meeting Comfort Cafe, Mantua, Ohio at 6 PM. Bring photos of any projects you have been working on or items of interest. Bring the wife and kids and come hungry.

Activities Between Seasons

As the season draws to a close, it doesn't mean that you can't visit with friends. Have some of you talked about visiting a museum or driving to an unfamiliar airport to check out approach and departure paths? Call up some people or maybe schedule something through the Events Coordinator or Newsletter Editor. People are usually looking for something to break up that long stretch after the holidays where not much is going on.

Remember that this is your club. You only get out what you put in. If any one has an idea to improve the club, please attend the meetings and share your ideas.

Looking Forward...

Please make sure that any events you hear about or remember from the past get sent to our Events Coordinator, Don James. Don does a fantastic job notifying the membership of the events on the calendar. If you are not receiving his e-mails, contact him to make sure you get on the list.
